Summary

Full-Stack Developer specializing in the **MERN** stack with experience across front-end, back-end, and mobile. Proven ability to deliver **scalable** web apps, optimize **API** performance, and implement secure authentication. Skilled in **CI/CD** pipelines, cloud deployment, and **Agile** collaboration.

Experience

Full-Stack Developer, *Freelance Full-Stack Developer*
- Delivered 10+ projects from requirements gathering to deployment.
- Optimized backend APIs, reducing response times by 30%.
- Collaborated with clients and teams using Agile methodology to deliver high-quality features on time.

Education & Internships

Front-End & Cross-Platform Mobile App Development, *Information Technology Institute (ITI)*
months intensive training
- Completed projects focused on responsive design and user interface enhancement.

Projects

Restaurant Management & Ordering System, *Node.js, Express.js, MongoDB*
Developed a multi-restaurant platform where owners register and configure tables. Each table is assigned a unique QR code; when scanned, customers view the menu, place orders, and requests are sent directly to the kitchen with table numbers.

Global Movies & Series Platform, *Node.js, Express.js, MongoDB, RESTful APIs*
Built a content platform displaying upcoming, and newly added movies and TV shows worldwide. Implemented country-based filtering and optimized API response for global scalability.

AI CV Builder & Job Analyzer, *Node.js, Express.js, MongoDB, OpenAI API*
Developed a bilingual (Arabic & Inglish) system for generating CVs using Al and analyzing job descriptions to suggest optimizations. Integrated authentication and secure tile handling.

Surveys Management System (Magdi Yacoub Hospital), *Node.js, Express.js, MongoDB*
Designed secure APIs for survey creation, storage, and analytics. Improved backend response times by 30%.

Ninja Dashboard System, *HTML, CSS, Bootstrap, JavaScript, Chart.js, ApexCharts*
Built a responsive dashboard for delivery company management with interactive charts and business analytics.

Dari Company for Decoration, *Next.js, Tailwind CSS*
Developed a modern, mobile-responsive landing page with optimized performance and clean UI.

Saraha Web App, *Firebase, Vanilla JS*
Built an anonymous messaging platform with real-time data storage and authentication.

Ancosy Real Estate Website, *React.js*
Created a responsive website to showcase services, property listings, and project portfolios.

Technical Skills

Front-End
- React.js
- Next.js
- JavaScript (ES6)
- TypeScript
- Tailwind CSS
- Bootstrap 5
- Material Ul
- Responsive Design
- SEO

Back-End
- Node.js
- Express.js
- MongoDB
- RESTful APIs
- GraphQL
- Authentication (JWT, OAuth2)
- Redis Cache

Mobile
- React Native
- Flutter
- Dart

Cloud & DevOps
- Firebase
- Vercel
- Heroku
- AWS (basic)
- CI/CD (GitHub Actions, Docker)

Tools
- Git
- GitHub
- Agile/Scrum
- Jira
